2018 ACTIVITIES

- Going Places! ages 2yrs – 75lbs
- Private Objective Based Karting Sessions
- Group Recreational Outings
- Integration Activities

RESULTS ORIENTED!

“Words cannot even begin to describe the magic” – A. DeArruda

“After a particular session our son excitably jumped in the car and stated “Mom, I believe there’s real hope for me now!” T. Ward

OUTCOME BASED THERAPEUTIC & EDUCATIONAL ACTIVITIES

THE PROGRAM

Heart of Unlimited Boundaries, Inc. 501c3 uses a combination of the vehicle, the course and the activity to achieve predefined therapeutic and educational objectives. Effective education and therapeutic activities on wheels! Special equipment and experienced staff allow everyone to operate various vehicles at their highest level of independence!

Individual and group activities take place throughout the year with everyone getting to drive! In short, we capitalize on the joy and enthusiasm of getting to operate the vehicle while taking advantage of the many physical and cognitive requirements of doing so.

INDIVIDUALIZED APPROACH

ONE-ON-ONE

The personalized private classes are driven far beyond recreation. Our goal is to help the individual and their care giver achieve their specific goals. These often include social skills, confidence, strength and stamina and so much more.

The diagnosis does not define the individual, but it often defines the process and approach. We are honored to work with individuals at every level of the autistic spectrum and those with physical or neurological challenges such as CP, MS, MD and many more. Each focusing on their specific strengths and goals.

OTHER IMPORTANT INFORMATION

- Programs for ages 2 and up. No individual is too severe to participate!
- We are not a provider and cannot except waivers. Our goal is to become an employer and a community integration center.
- Featured on the front page of the Columbus Dispatch Nov. 2016 and December 2017
- Strong relationships with many local Boards of DD, providers and we are supported by many community partners.
